

Run your dogfight. Don't let it run you.

Sign-ups, live scoring, quotas, skins money and official results — automated end to end. A web console for you, an app for every player, and a live scoreboard on the clubhouse TV.

WHAT IT DOES FOR THE PRO

- ✓ **Set up Saturday in 60 seconds.** Course, format, skins — hit create and every member's phone gets one-tap sign-up.
- ✓ **Quotas on autopilot.** Every player's number recalculates after every round — rolling average, best-N, or manual, with audited overrides.
- ✓ **Skins, junk & the classic games, zero disputes.** Gross or net skins with carryovers, Nassau (with presses), Wolf and Vegas, 1v1/2v2 matches accepted in-app, payouts computed to the penny. Players settle via pre-filled Venmo links — the app never touches money.
- ✓ **One click makes it official.** Finalize recomputes points, quotas and money server-side and pushes results to every phone.
- ✓ **Members feel the upgrade.** Push announcements, group chat, AI-written round recaps, season standings with a Skins King crown.
- ✓ **Works for every member.** A scorer can keep any card, guests walk up with no account, and rosters export for the pro shop.

THE BOARD PAYS FOR ITSELF

Put local sponsors — brewery, realtor, car dealer — on your TV board and recap cards. One \$1,000 headline sponsor (or two \$500 spots) covers a 40-member club's subscription with room to spare. You keep the difference.
